ADMISSION.

THE student must be twelve years of age for admission to the Scientific or Preparatory classes, and fourteen for admission to the College classes.

In all cases satisfactory testimonials of good character must be given; and of students coming from another College a certificate of regular dismission is required.

Uninterrupted residence is required during Term time. Graded students, absent for whatever cause, are liable to degradation. Leave of absence is granted only in extreme cases.

We prefer that those who intend to graduate at this Institution should enter the Freshman Class at least, if not our Preparatory School, rather than prepare themselves elsewhere for an advanced standing.

Students coming from other Colleges are examined and receive their grade by the judgment of the Faculty.

Candidates for admission to the Freshman Class must pass an examination in the books prescribed in our Preparatory Course; or, if they come from other schools, where different authors are read, in that which shall be deemed an equivalent to this Course.

EXAMINATIONS.

THERE is a public examination at the close of each term, in all the studies pursued during the term. The examination is rigid and impartial; and in no case is a student suffered to advance, unless it is evident to the Faculty and Examining Committee that, by diligent and successful application, he has entitled himself to such promotion.

GOVERNMENT.

A DAILY account is kept of each student, in such a way as to afford a full exhibit of his habits in regard to regularity and punctuality in his duties, as well as the merit and demerit of his recitations in his several studies. This exhibit is read publicly at the close of the term, and a copy sent, when desired, to the parents or guardians of each student.
